

## INSITUTION USER LICENCE FOR AGORA BAND 1

The AGORA Programme is coordinated by the Food and Agriculture Organization (FAO) as the lead agency. It is a collaboration between FAO, publishers and other agriculture content owners intended to provide agriculture and related topics research and guideline information to non-profit academic and research institutions, governmental and policy making departments in low income countries. Access to this information will generally be provided at low cost or in most cases free by the Publisher, to institutions in many countries with a Gross National Income (GNI) per capita of US \$1000 or less according to the 2005 World Bank Report (AGORA Band 1), and will be governed by the terms of this Licence.

As the AGORA Publishers Statement says, participating publishers will provide “access to a wide range of key agriculture and related journals at prices which reflect the state of national economies in the developing world.” (Rome 14 October 2003).

In order to benefit from this offer, qualifying institutions in Band 1 countries which sign up for AGORA access will maintain their existing journal subscriptions, as of the year of their registration with AGORA.

This Licence constitutes a formal and legal agreement between

.....(Institution)

and the Publishers listed on Annexe A for access to and use of the online agricultural information published by the Publishers and as amended from time to time on the AGORA Portal <http://www.aginternetwork.org>. The Licence is exclusive to the Institution named at the head of the Licence and may not be extended to any other institution or party without the express written agreement of the Publishers. FAO assists eligible institutions to obtain a licence from the Publishers.
